MESSAGING
You can message everyone or individuals

How it works

1 We provide you with a username and password to login to our app and website to help manage your tour.

2 You can private message all participants as a group in real time or individually.

3 You can post your tour itinerary on the App for travelers to reference.

4 This App lets you upload and share photos while on tour and the images are available to you later for marketing purposes.

MANAGEMENT BENEFITS:

- A GPS Function that allows you to find lost travelers.
- It is secure since no emails or phone numbers are collected. Thus you have a secure connection between you and your group members.
- Select World Travel by U.S. Tours includes the Group Travel Video App in every large Tour Package, for small tours it can be purchased for only \$10 per person.

MARKETING BENEFITS:

- Facebook sharing makes these photos a viral advertisement of your program as happy travelers share images to friends, family and potential customers at home.
- Plus you receive a digital Video after the tour, which can also be used on Facebook and at trip presentations to show your travelers having fun.
